Faisal Shoail, SAUDI EKMAL TRADING CO. LTD. P.O. Box 1994 Dammam 31441

Fax: +966-13-8432058

Dear Faisal Shoail,

We are pleased to inform you that SAUDI EKMAL TRADING CO. LTD. is now considered a potential supplier to Saudi Aramco under vendor code: 0010055221. As per your Commercial Registration, the following Material Service Groups (MSGs) are assigned to you:

Material Service Group	Description
125000	Grating

This approval, however, should not be construed as a commitment by Saudi Aramco to purchase from you, but your company will have the opportunity, along with other approved sources, to respond to requests for submitting proposals in accordance with Saudi Aramcos established policies and procedures. All purchase agreements and orders will be issued based on the name and address stated in your Commercial Registration (CR), as stated above.

Please note that evidence of representation from your supply source(s) must be supported by letter(s) of confirmation stipulating the territorial coverage and specific product lines involved. Your supply sources must have been accepted as qualified suppliers of the range of materials that you wish to supply. It is also important that you advise us immediately of any changes in the agreements which you have negotiated with your supply sources and/or any changes in your contact information such as postal address, telephone and fax numbers.

Dear Vendor,

I am pleased to inform you that your company SAUDI EKMAL TRADING CO. LTD. has been successfully registered with Ma'aden.

From now onwards, your company may receive from Ma'aden or its affiliates, request(s) to participate in tenders (RFP/RFQ) for Goods and/or Services and/or Projects in line with your competencies. However, please do not read into this letter that it constitutes a guarantee that you will receive any such requests, as those are dependent on many factors evaluated according to our discretion as needs arise.

Please note that your Vendor Code is: 12494

You should also have received, an ID and password that will allow you to log on our Supplier Portal Oracle Applications system.

If you have any further questions or require additional information then don't hesitate to contact me.

We appreciate your interest in becoming a Ma'aden vendor and look forward to the opportunity to work with you.

Best Regards,

Supplier Relationship Manager

PRODUCTS LIST

SAUDI EKMAL offers products at a very competent prices and have never been known to compromise on the quality of its products. For your further reference below are list of materials which we supply either standard or customized fabricated:

Gratings

Steel grating, also named as metal bar grating, it is made by welding flat steel and bars with certain distances. Metal bar grating can be defined as a series of metal bars positioned vertically, placed an equal distance apart and joined by cross bars or twisted rods members to form a rectangular pattern. Typically manufactured from mild carbon steel, the products are used broadly across many industrial and commercial applications. Common uses range from walkways, platforms, trench covers, fences, and other properties. We supply standard panels and customized gratings as per clients' requirements.

· Equal & Unequal Angles

Steel angles, or angled iron, are essential tools in any architectural project. They can be made either from a single piece of iron or steel bent lengthwise to a particular angle - usually 90 degrees - or by attaching two pieces together at the desired angle. The larger the steel angle, the more weight and stress it can bear. Steel angles are used broadly, from major construction work to basic home improvement, but they fall into several broad categories.

Flat & Round Bars

Flat & round bars, are widely used for all general fabrication and repairs in industrial maintenance, agricultural implements, transportation equipment, etc. The most common applications for the bars are frame work, braces, supports, plates, straps and fabrication of other steel products.

Handrails

Handrails are commercial railing systems for stair rails, platform/walkway handrails and guardrails. These systems adopted from ball joints design, can be transported and installed fast in all applications.

· Fences

SAUDI EKMAL offers a prestige range of steel fencing products. The fencing products are designed for a range of applications including; industries, security, decorative and residential and commercial fencing.

· Pipes & Tubes

Structural pipes & tubes are available in a variety of sizes and grades so that it can be used for a number of different structural uses and applications. Common uses for structural pipes & tubes include for columns, bollards, sign poles, structural supports, piling, railing and other mechanical applications.

L& H Beams

Beams are commonly made of structural steel but may also be formed from aluminum or other materials. They are available in different sizes and grades. The most common applications for beams are, construction support beams for commercial and residential construction, support frames and columns for trolley ways, lifts, hoists, mezzanines, platforms, trailer and truck bed framing, bridges and so forth.

· Channels

Steel channels are strips of steel that have been formed into a "C" or "U" shape or channel and are therefore often referred to as "C Channels" and "U Channels". Steel channels are used for applications ranging from building construction to equipment manufacturing. Many more processes and operations incorporate steel channels into products.

Sheets & Plates

Steel sheets & plates have found wide ranging applications that support various industries and the daily lives of people everywhere. These applications include automobiles, home appliances, construction materials, housing materials, beverage cans, transformers and etc.

· Fasteners – Bolts & Nuts

Fasteners, nuts, bolts, screws, clamps, etc. – they hold things together and their finishes are critical to this function. Fasteners are coated to protect against corrosion or to achieve special properties. SAUDI EKMAL offers a very wide range in different types of fasteners. We are also able to supply fasteners with additional processes such as Surface Coatings depending upon your requirements.

QUALITY ASSURANCE

SAUDI EKMAL considers the quality as the first sensitive factor to provide a unique product and service. Thus, it is our responsibility to adhere to the most common international standards for our supplied products in both material grades and fabrication standards. For your further reference, below are the materials and fabrication standards:

- Material Grades

Carbon SteelStainless SteelA

- Aluminum

- Galvanizing

American, British, Australian, Japanese and Chinese standards

- Fabrication Standards

- Grating | NAAM MBG531, MBG 533, MBG

534
